

The Madison Hotel

Residing at 4 story home for 20yrs
brings nothing but happy memories
Too many to count but the ones that
stand out are the basement. Since
having grandchildren it was a blessing.
every time they came to visit after
giving a hug and kiss they would say
"lets go downstairs"

They space offered them the opportunity to
for ride on toys, slides, tents, etc.
A day care would envy what was
down there.

Our sun room is another great memory. Since
adding that on after we moved in gave
us the space for entertaining without
feeling over crowded and enabled me to
have an island.

The flow of company was great to have
between the sunroom, kitchen, and family room
our family room was the nightly spot
for watching a movie or catching a up
on series, so cozy with our two pets
joining us. On a cool evening the realistic
fireplace would be on with a push of a
button adding to the ambiance
