

**INSTRUCTIONS –
NEW JERSEY REALTORS®
SELLER'S PROPERTY CONDITION DISCLOSURE STATEMENT**

© 2018 New Jersey REALTORS®

Effective August 1, 2024, the New Jersey Real Estate Consumer Protection Enhancement Act, P.L.2024,c32, requires sellers of residential property located in New Jersey to complete and sign a property condition disclosure statement as promulgated by the New Jersey Division of Consumer Affairs pursuant to N.J.A.C. 13:45A-29.1. This requires all sellers of residential real estate to provide the property condition disclosure statement to a prospective buyer before the prospective buyer becomes obligated under any contract for the purchase of the property.

Additionally, the New Jersey Law of Flood Risk Notification, P.L.2023,c93, requires sellers of all real property located in New Jersey to make certain supplemental disclosures concerning flood risks on the "Flood Risk Addendum" incorporated within the property condition disclosure statement. As a result of these two laws:

- All sellers of **residential property** must complete Questions 1-108 on the property condition disclosure statement; and
- All sellers of **residential and non-residential (i.e. commercial)**, must complete the Flood Risk Addendum, Questions 109-117, on the property condition disclosure statement.

Moreover, regarding the property condition disclosure statement, the New Jersey Division of Consumer Affairs has provided the following instructions:

The purpose of the Property Condition Disclosure Statement ("Disclosure Statement"), including the Flood Risk Addendum, is to disclose the condition of the property, as of the date set forth on the Disclosure Statement or Flood Risk Addendum. The seller is under an obligation to disclose any known material defects in the property even if not addressed in this printed form. The seller alone is the source of all information contained in this form. All prospective buyers of the property are cautioned to carefully inspect the property and to carefully inspect the surrounding area for any off-site conditions that may adversely affect the property. Moreover, this Disclosure Statement is not intended to be a substitute for prospective buyer's hiring of qualified experts to inspect the property.

If a property consists of multiple units, systems and/or features, please provide complete answers on all such units, systems and/or features even if the question is phrased in the singular, such as if a duplex has multiple furnaces, water heaters, and fireplaces.

Pursuant to P.L. 2024, c.32, completion of questions 1 through 108 is mandatory for all sellers of residential real property in the State. Sellers of residential real property must answer these questions before the purchaser becomes obligated under any contract for the purchase of the property. Questions 1 through 108 must be answered to the best of the seller's knowledge, unless otherwise stated.

Pursuant to N.J.S.A. 56:8-19.2, completion of the "Flood Risk Addendum" questions 109 through 117 of the Disclosure Statement, is mandatory for all sellers of real property (including both residential and non-residential property). Sellers of real property must answer these questions before the purchaser becomes obligated under any contract for the purchase of the property. This is the case regardless of whether a seller completes questions 1-108 of the Disclosure Statement. Sellers must verify their answers to questions 109 and 110, and may do so using the Flood Risk Notification Tool located at flooddisclosure.nj.gov. Questions 111 through 117 must be answered based on the seller's actual knowledge.

A seller must execute a separate acknowledgement for each portion of the Disclosure Statement that the seller completes. If a seller does not answer questions 1 through 108, no acknowledgement is required for that portion. However, the mandatory Flood Risk Addendum must still be completed and acknowledged in all cases.

Lastly, **New Jersey REALTORS® Seller's Property Condition Disclosure Statement**, Form #140, includes an Addendum Regarding Statutory Disclosures & Other Items, Questions 118-136a, to be answered to the best of seller's knowledge as required by law.

RADON GAS Instructions to Owners

By law (N.J.S.A. 26:2D-73), a Property owner who has had his or her Property tested or treated for radon gas may require that information about such testing and treatment be kept confidential until the time that the owner and a buyer enter into a contract of sale, at which time a copy of the test results and evidence of any subsequent mitigation or treatment shall be provided to the buyer. The law also provides that owners may waive, in writing, this right of confidentiality. As the owner(s) of this Property, do you wish to waive this right?

NEW JERSEY REALTORS®
SELLER'S PROPERTY CONDITION DISCLOSURE STATEMENT
ADDENDUM REGARDING FLOOD RISK

© 2018 New Jersey REALTORS®

Pursuant to N.J.S.A. 56:8-19.2, all Sellers of real property (including both residential and non-residential property) must complete questions 109-117 below.

Sellers of real property must answer these questions before the purchaser becomes obligated under any contract for the purchase of the Property. This is the case regardless of whether the Seller completes questions 1-108. Sellers must verify their answers to questions 109-110, and may do so using the Flood Risk Notification Tool located at njreal.to/flood-disclosure. Questions 111-117 must be answered based on the Seller's actual knowledge.

Flood risks in New Jersey are growing due to the effects of climate change. Coastal and inland areas may experience significant flooding now and in the near future, including in places that were not previously known to flood. For example, by 2050, it is likely that sea-level rise will meet or exceed 2.1 feet above 2000 levels, placing over 40,000 New Jersey properties at risk of permanent coastal flooding. In addition, precipitation intensity in New Jersey is increasing at levels significantly above historic trends, placing inland properties at greater risk of flash flooding. These and other coastal and inland flood risks are expected to increase within the life of a typical mortgage originated in or after 2020.

To learn more about these impacts, including the flood risk to your Property, visit njreal.to/flood-disclosure. To learn more about how to prepare for a flood emergency, visit njreal.to/flood-planning.

| ☐ | ☒ | | 109. Is any or all of the Property located wholly or partially in the Special Flood Hazard Area ("100-year floodplain") according to FEMA's current flood insurance rate maps for your area? |
| ☐ | ☒ | | 110. Is any or all of the Property located wholly or partially in a Moderate Risk Flood Hazard Area ("500-year floodplain") according to FEMA's current flood insurance rate maps for your area? |
| ☐ | ☒ | ☐ | 111. Is the Property subject to any requirement under federal law to obtain and maintain flood insurance on the Property?
<i>Properties in the special flood hazard area, also known as high risk flood zones, on FEMA's flood insurance rate maps with mortgages from federally regulated or insured lenders are required to obtain and maintain flood insurance. Even when not required, FEMA encourages property owners in high risk, moderate risk, and low risk flood zones to purchase flood insurance that covers the structure and the personal property within the structure. Also note that properties in coastal and riverine areas may be subject to increased risk of flooding over time due to projected sea level rise and increased extreme storms caused by climate change which may not be reflected in current flood insurance rate maps.</i> |
| ☐ | ☒ | ☐ | 112. Have you ever received assistance, or are you aware of any previous owners receiving assistance, from FEMA, the U.S. Small Business Administration, or any other federal disaster flood assistance for flood damage to the Property?
<i>For properties that have received federal disaster assistance, the requirement to obtain flood insurance passes down to all future owners. Failure to obtain and maintain flood insurance can result in an individual being ineligible for future assistance.</i> |
| ☐ | ☒ | ☐ | 113. Is there flood insurance on the Property?
<i>A standard homeowner's insurance policy typically does not cover flood damage. You are encouraged to examine your policy to determine whether you are covered.</i> |
| ☐ | ☒ | ☐ | 114. Is there a FEMA elevation certificate available for the Property? If so, the elevation certificate must be shared with the buyer.
<i>An elevation certificate is a FEMA form, completed by a licensed surveyor or engineer. The form provides critical information about the flood risk of the Property and is used by flood insurance providers under the National Flood Insurance Program to help determine the appropriate flood insurance rating for the Property. A buyer may be able to use the elevation certificate from a previous owner for their flood insurance policy.</i> |
| ☐ | ☒ | ☐ | 115. Have you ever filed a claim for flood damage to the Property with any insurance provider, including the National Flood Insurance Program?
If the claim was approved, what was the amount received? \$ _____ |
| ☐ | ☒ | ☐ | 116. Has the Property experienced any flood damage, water seepage, or pooled water due to a natural flood event, such as heavy rainfall, coastal storm surge, tidal inundation, or river overflow?
If so, how many times? _____ |

117. Explain any “yes” answers that you give in this section: _____

If you responded "yes," answer the following questions.

Yes No Unknown

☐

118. When was the Solar Panel System Installed? _____

☐

118a. What is the name and contact information of the business that installed the Solar Panel System? _____

☐ ☐

118b. Do you have documents and/or contracts relating to the Solar Panel System? If "yes," please attach copies to this form.

☐ ☐

119. Are SRECs available from the Solar Panel System?

☐

119a. If SRECs are available, when will the SRECs expire? _____

☐ ☐

120. Is there any storage capacity on the Property for the Solar Panel System?

☐ ☐

121. Are you aware of any defects in or damage to any component of the Solar Panel System? If yes, explain: _____

Choose one of the following three options:

☐

122a. The Solar Panel System is financed under a power purchase agreement or other type of financing arrangement which requires me/us to make periodic payments to a Solar Panel System provider in order to acquire ownership of the Solar Panel System ("PPA")? If yes, proceed to **Section A** below.

☐

122b. The Solar Panel System is the subject of a lease agreement. If yes, proceed to **Section B** below.

☐

122c. I/we own the Solar Panel System outright. If yes, you do not have to answer any further questions.

SECTION A - THE SOLAR PANEL SYSTEM IS SUBJECT TO A PPA

☐

123. What is the current periodic payment amount? \$ _____

☐

124. What is the frequency of the periodic payments (check one)? ☐ Monthly ☐ Quarterly

☐

125. What is the expiration date of the PPA, which is when you will become the owner of the Solar Panel System? _____ ("PPA Expiration Date")

☐ ☐

126. Is there a balloon payment that will become due on or before the PPA Expiration Date?

☐

127. If there is a balloon payment, what is the amount? \$ _____

Choose one of the following three options:

☐

128a. Buyer will assume my/our obligations under the PPA at Closing.

☐

128b. I/we will pay off or otherwise obtain cancellation of the PPA as of the Closing so that the Solar Panel System can be included in the sale free and clear.

☐

128c. I/we will remove the Solar Panel System from the Property and pay off or otherwise obtain cancellation of the PPA as of the Closing.

SECTION B - THE SOLAR PANEL SYSTEM IS SUBJECT TO A LEASE

☐

129. What is the current periodic lease payment amount? \$ _____

☐

130. What is the frequency of the periodic lease payments (check one)? ☐ Monthly ☐ Quarterly

RE: CS22061-02

Dear Mrs. DeCesare:

As requested, Advanced Tank Services Co. on January 31, 2002 sent a technician to 114 Coleman Avenue, Chatham, New Jersey to extract soil samples around an underground storage tank. The purpose of the soil borings and sampling was to investigate the possibility of petroleum hydrocarbon contamination of the soil.

Initially, our technician determined the tank was closed in place. There was no fill pipe, therefore the technician was unable to determine the tanks contents.

The technician followed the New Jersey Department of Environmental Protection (NJDEP) standard procedure for testing petroleum hydrocarbon contamination of soil. Following this procedure, the technician extracted samples from each side of the tank for a total of 4 borings. Soil samples were extracted from depths of 72 to 78 inches. The technician preserved the samples and transported them to the Integrated Analytical Laboratories, L.L.C. for analysis.

The laboratory evaluated the extracted samples on February 5, 2002. Laboratory I.D. #s 740-001, 740-002, 740-003 and 740-004 analyses, as per EPA Method 418.1, depicts the total petroleum hydrocarbons (TPHC) found in the samples. There were None detected, None detected, None detected and None detected mg/kg traces of total petroleum hydrocarbons detected in the samples respectively, which is below the guidelines of 10,000 mg/kg established by the NJDEP.

In summary, no contamination was detected in the sampled area around the underground storage tank, which exceeds the parameters of N.J.A.C. 7:26E, Table 2-3. Enclosed are copies of the Integrated Analytical Laboratory Report.

If we can be of any further assistance, please feel free to contact us.

Very truly yours,

Marc Ricciardi

Mr. John De Cesare

Dear De Cesare:

I meet with your realtors yesterday and searched and found the old oil tank at 114 Coleman Avenue, Chatham, NJ. In addition to using a metal detector, I hammered a steel rod into the soil just under the rear deck.

Today, I visited the building department and searched their records. I found that in 1993 the tank was "filled in place" — see attached permit.

I trust this info is helpful; please call me upon receipt of this letter.

Very truly yours,
